This summer, we will once again be utilizing Beanstack as part of our 2023 Reading Program. Beanstack is an app and website that helps families keep track of their reading and participate in reading challenges. Download the Beanstack app or visit our library's Beanstack website at peruin.beanstack.org to register for Beanstack. Make sure you are on the Peru Public Library in Indiana's site. After registering, you will see the challenges for your age group. Just click to enter the challenge called All Together Now. If you used Beanstack last year, you will still have a Beanstack account and can sign-up for this summer's challenge on your existing account. If you need help registering or entering the challenge, please visit the library for assistance.

For those patrons who do not wish to use Beanstack, we will also have paper logs available.
